

February 2013

End of Year Pot Luck and Award Party resulted in a nice get to get-together with fun for all !!!

I'm sure that those that attended the year end Pot Luck and Awards gathering will attest to the good food and good times. President Larry Burchard had marinated the meat and started cooking it at about 6:00. While the meat was cooking, members had a chance to catch up on hunting news and other happenings. The tables were made ready with all the different pot luck dishes that the families had prepared. As usual, it was all good and no body was lacking a full plate.

After everyone had eaten their fill, Larry emceed the program and made a short presentation about the year end awards. We then proceeded with the door prizes which included some of the left over meat which was really delicious. Also,

we tried to have enough prizes that everyone got something whether it be large or small or expensive or not so expensive. During the raffle, everyone kind of got out of hand by

stealing from each other and we finally had to rule that items could only be stolen once. Some items got stolen from a person and that person stole them back and a "mystery box" got stolen back and forth at least 3 to 4 times. It was funny.

Then it was time to award the Bowhunter Award to Larry Burchard for the nice Mule Deer Buck that he harvested. And, by the way, you too could have gotten a plaque for any big game animal you harvested by simply filling out the last page of questions regarding your successful hunt. I hope that next year, everyone will submit their successful hunt.

ALSO as information only, do you like to see almost everyone get a door prize or would you

rather see just a few larger more expensive prizes? It is my opinion that there are usually so many young people there, that a chance for more people to get a prize is a bit more fun than just a few and having it over with in such a short time. However, nothing is permanent so express you opinion if you have one, please!
