

Fallon Bowmen Handicap League

How it works:

- 1). First 3 weeks will establish your handicap.
- 2). Handicap established on a sliding scale:

Less than 260 = 90%, 261-270 = 85%, 271 and above = 80%
- 3). Last three scores averaged, subtracted from 300, and multiplied by .80 will give you your handicap.
- 4). X's totaled each night add to your totaled handicapped score.
- 5). Total points over the 12 week period take 1st place.
- 6). You may miss a week of shooting; the week may be made up during the following weeks. The make-up scores will be noted on the whiteboard in the "Week Missing" slot and will be averaged at 80%. No matter your sliding handicap bracket.
- 7). League night shall consist of 10 ends of 3 arrows shot at the multi-color Vegas face, scoring 10 through 0 points, for a possible total of 300, 30X points, and 12 ends of 5 arrows shot at the NFAA blue face, scoring 5 through 0 points for a possible total of 300, 60X score.
- 8). At the beginning of scoring rounds, participants will start on the Vegas face.
- 9). All participants will start the scoring rounds at the same time.
- 10). Halfway through each target face round, the target will be moved to the lower bale. This will be announced and all participants should be on the same end of shooting.
- 11). Each archer shall be in a group of at least 3 people, one scoring arrows and two keeping score.
- 12). Arrows shall not be touched until they have been scored. Once all arrows are scored, they can be pulled.
- 13). Arrows that are questionable regarding placement in the target may be scrutinized by a second person in the group. If a general consensus cannot be determined, league coordinator, Larry Burchard, will make the final determination.
- 14). An arrow that is nocked and becomes disconnected from the string, shall be scored unless that arrow is within the archer's one stride from the shooting line.

15). Scores must be totaled on both cards, and scores must match for archer's scores to be entered onto league scoreboard.

16). League fees are \$20.00 for the season.

17). Winners bracket will pay 3 places. First place 60%, second place 30% and third place 10% of total fees collected from participants.

18). **HAVE FUN AND SHOOT STRAIGHT!**

Formula: Last three scores divided by 3 = Average

300 minus average = Differential

Differential multiplied by .80 = Handicap

or

.85

or

.90
